

Score 100 – Double Score

2-in-1 Play Area

A Brand-New Play Area: **EXTRA Large**, **EXTRA Washable** and **EXTRA Easy to Store!**

IMPORTANT, BEFORE YOU PLAY:

- Make sure the floor is clean and unwrap the mat on the side of the chosen game. Note: the mat should always be wrapped and unwrapped from the floor to allow it to keep its shape. The mat will settle on the floor after a few minutes.
- You must decide with the players which percentage of the bag should be on the scoring area in order for the points to be taken into account. If only one corner of the bag hits the scoring area, is that enough? We recommend that 50% of the bag should be in the scoring area to give everyone a chance to win points. This decision should be made before the game begins.

HOW TO PLAY SCORE 100

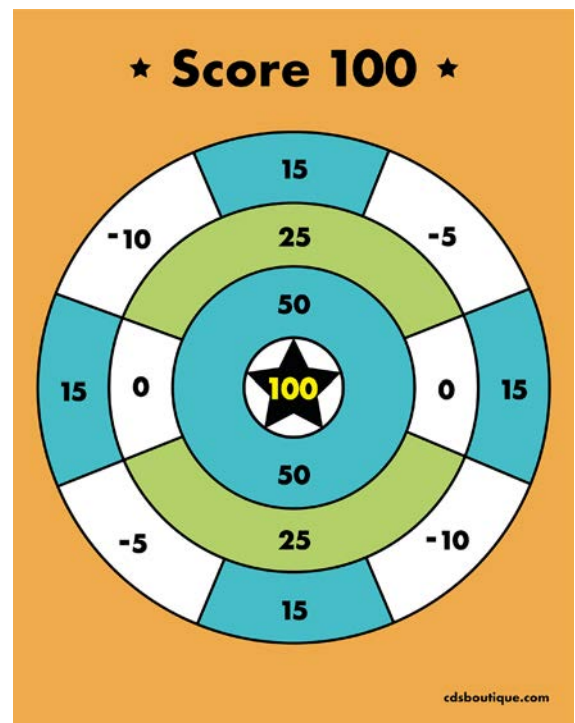

(can be played alone or in teams)

Difficulty level : easy

Score 100 is an easier target to master because you are almost sure of scoring every time. The players stand 6 feet away from the mat. Of course, you can allow players sitting in a chair to get closer to the target.

You may or may not form teams of 2 or more players. Decide how many points the winner should reach. 150 points? 200 points?

Each player or team tosses 3 bags and counts their total score. You can leave the bags already tossed on the target to increase the difficulty level. Once both players have thrown their bags, they are collected and another round is played. Whoever has reached the winning score, determined before beginning the game, wins. Let's do it again! You can also allow each player to throw 6 bags to improve their throwing skills. It's up to you!

HOW TO PLAY DOUBLE SCORE (can be played in teams)

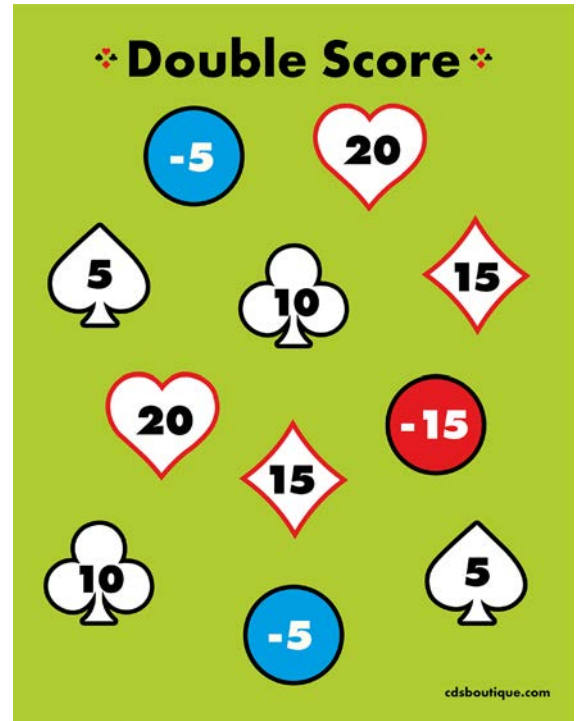

Difficulty level : medium

Create teams of 2 or more players. Each team must determine the order in which their participants will play throughout the game. Let luck determine which team starts the game. Participants should stand 6 feet away from the play area. You can decrease or increase this distance depending on the residents' abilities.

You start the game with the "Heart trump" round. The first player of the first team tosses 3 bags and tallies the points. If a bag falls on a heart, it doubles this score. The bags that do not fall on a heart are counted with their regular value. Keep track of the score on a sheet of paper under the

column of team 1. Then the first player of the next team does the same and so on until all players of each team have played their 3 bags of the «Heart Trump» round. Then, we move on to the «Diamonds trump» round and we follow the same process again.

Except for the no-trump round where all points are doubled, the same process is followed in each round in the following order: hearts, diamonds, clubs, spades and no-trump. When all players have played their bags, the total for each team or player is calculated and the person or team with the highest score wins the game. If there is a tie, an extra round can be played to define a winner.

CARE INSTRUCTIONS :

- Make sure the floor is clean before you unroll the play mat so that the mat does not get damaged by any dirt. You can use a soft cleaning soap or a wet cloth to remove any dirt from the playing surface.
- **ALWAYS** roll or unroll the play mat when it is on the floor so that it keeps its shape for a long time.

Included: a washable vinyl play area, 6 washable vinyl bags, instructions
